Mr. Mark Wrobel  
SoCal Ship Services  
Berth 240 Z  
Terminal Island, California 90731

Dear Mr. Wrobel:

An unannounced Oil Spill Response Organization (OSRO) rating drill was conducted on SoCal Ship Services on June 12, 2007 in Long Beach, CA. The purpose of this drill was to test your oil spill response capability with the California Department of Fish and Game's Office of Spill Prevention and Response.

SoCal Ship Services met all of the objectives of the drill with the exception of temporary storage. SoCal Ship Services no longer owns or controls the storage capability that it had when it submitted its original OSRO application. Therefore, SoCal Ship Service's temporary storage rating has been modified to reflect its performance during the unannounced OSRO rating drill. A matrix is enclosed that itemizes all of your current rating levels.

California Code of Regulations, Title 14 section 819.05 requires that any significant reduction in response capability be reported to the Administrator within 14 days in advance of such reductions. If you have any questions, contact Mr. Mark McCaleb, Marine Safety Branch, at (916) 324-0144 or by email at [mmccaleb@ospr.dfg.ca.gov](mailto:mmccaleb@ospr.dfg.ca.gov).
